Coop members offer a variety of courses here ranging from permaculture, eco-village design and sustainable building to community governance, self-development, natural vision and early childhood education.

### Music Events

The Deck is a unique alternative venue for your next event—party, wedding, conference, workshop. Regular music events bring the Deck alive at night with local and interstate performers. For information see contact details overleaf.

### Nature

Nestled between the foothills of the surrounding Blackhall & Bellthorpe ranges, Crystal Waters has a diversity of bushland from open sclerophyll to

rainforest gullies. The property is bordered by the Mary River and two creeks. Several scenic dams add to the diversity of wildlife habitat. As dogs & cats are not allowed on the community, native wildlife abounds. Guided bush walks and bird walks are available

by arrangement.

Conondale National Park & the Blackall Range Great Walks are also nearby.
